MONDAY MORNING, NOVEMBER 17, 1856. AN ANTICLE in the last New Englander, treating of the power of the ministry, mentions as one of its elements, physical strength. "As a general rule," says the writer, "no man's throat ails until the rest of his body becomes weakened. And no man's acryous system becomes unable to bear the strain of study until the whole physique has been reduced to the condition of a not-house plant. The first, second and third things necessary to give the preacher a body, through which he can preach to the purpose, is open-air exercise. Why are our Methodist brethren able to perform such an amount of preaching with safety? Because they live more on horseback, and less in the study, than is com-

NECESSITY FOR IMPROVING THE OHIO,-The Philadelphia Ledger of Monday, calls attention to the fact, that owing to the low water in the Onio during the present season, the receipts of the Pennsylvania Railroad for the last four months, have fallen off \$120,000 from the aggregate of the corresponding months of 1855, while the receipts of the B. & O. R. R. have owing to more complete Railroad connections, increased \$89,000 per month during the same period.

THE Prairie Farmer is down on Solon Robinson, the reporter of the Tribune of the New York Cattle Market. Hear him:

York Cattle Market. Hear him:

What can we do to stop the mouth or pen of that swaggering and blatant agricultural editor of the New York Tribune, who is constantly assuring the country that beef must soon be cheap, and is calling upon us farmers to make up our minds for the low prices? Please tell Solon that we consider him an ass and defy him. With our parched and withered meadows, and shriveled cornfields, and half starved cattle smashing down our best fences to get a taste of our half grown corn, and with our sleepless nights and midnight onslaughts among the rattling stocks and scampering brutes—we steepless nights and midnight onslaughts among the rattling stocks and scampering brutes—we venture to assure all New Yorkers who scribble about our inexhaustible supply of fat cattle, &c, that we shall sell our cattle to the drovers only, at paying prices. Grass fed beef in this quarter is a failure, and we must stall feed what few cattle we turn off, or else sell half fatted

SOUTHERN COMMERCIAL CONVENTION. - The time for holding the annual meeting of the Southern Commercial Convention is now approaching, and we trust that his Excellency, Gov. Adams, has well considered the importance of appointing an appropriate and strong representation from this State. Nothing in recent events releases us from the

Moding obligation of taking care of our future. We have elected a President, in whose good faith and good feeling we may place entire con-fidence; but we have elected him under circumstances that, more than any thing which has oc-curred previously, warn us that the people of the North and the South are two nations. In this assemblage, therefore, and in any assemblage representing the Southern people in their commercial, industrial, or political character; we are compelled to take into consideration this leading fact, that we are a section of the Confederacy proscribed, denounced, and in a fixed minority. We stand forever at the bar, with Northern hostility as our judge and jury, and in every question of right that comes before the Confederate Legislature. Recent events when on every question of right that comes before the Confederate Legislature. Recent events show that we have no hope in a growing sense of justice on the part of the majority, and that we can only trust to the growing necessity for a union and strict understanding on the part of the minority. This gathering of Southern men, animated, as we must suppose by a convexe of mated, as we must suppose, by a common sentiment of patriotism, and a common desire to promote the safety and prosperity of their section, may have it in its power to add much to the impulse of Southern feeling, and the advancement of Southern interests. We trust that South Carolina will be represented in this vancement of Southern interests. We trust that South Carolina will be represented in this Convention by a body of men who will not only be trus to her own particular interests, but who will carry into that assemblage a spirit of large and generous patriotism, looking to the advantage of the whole country represented, and not fearing to face the most perilous questions that manage as from without.

North Carolina—We have full returns of the vote for President in thirty-eight counties of North Carolina, which show the losses and gains as follows: Fillmore's gains 1984; Buchanan an's gains 1505; net Filmore's gains 1984; Buchanan an's gains 1505; net Filmore gain 459. This is as compared with the last gubernatorial election, when there was a very large Democratic majority.

Louisiana—The New Orleans papers, received yesterday by mail, concede Louisiana to Buchanan and give returns from twenty three parishes, which show the following results:—Fillmore, 4631; Buchanan, 2862. Twenty-one parishes remain to be heard from.

Virginia give the following results:—Fillmore, 36, 200; Buchanan, 41, 329; Buchanans as the prescribed. A few weeks convinced me that I was in the right bands. I persevered with confidence, gradually and stradily improvable for Buchanan, and 601, or 2900 net majority.

MR. BUCHANAN ON THE PACIFIC RAILROAD QUESTION.

WHEATLAND, (near Lancaster) Pa., September 17th, 1856. To B. F. Washington, Esq., Chairman of the Democratic State Central Committee of California—Sir. I have received numerous communications from sources in California entitled to cations from sources in California entitled to high regard, in reference to the proposed Pacific Railroad. As it would be impossible for me to answer them all, I deem it most proper and respectful to address you a general answer in your official capacity. In performing this duty to the citizens of California, I act in perfect consistency with the self-imposed restriction contained in my letter accepting the nomination for the Presidency, not to answer interrogations raising now and different issues from those presented by the Cincinnati Convention, because ited by the Cincinnati Convention, because that Convention has itself adopted a resolution

that Convention has itself adopted a resolution in favor of this great work.

I then desire to state, briefly, that, concurring with this Convention, I am decidedly favorable to the construction of the Pacific Railroad; and I derive the authority to do this from the constitutional power "to declare war" and the constitutional dower to "repel invasions." In my judgment, Congress possesses the same power to make appropriations for the construction of this road, strictly for the purposes of national defence, that it has to erect fortifications at the mouth of the harbor of San Francisco. Indeed, the necessity, with a view to repel foreign invathe necessity, with a view to repel foreign inva-sion from California, is as great in the one case as in the other. Neither will there be danger

NEW YORK, Wednesday, Sept. 3, 1856.

My attention has been called to a gross attack made in the September number of a medical periodical upon Dr. Robert Hunter, of this city, is which the "eure" so happily effected in my case is discredited; although the editor who is guilty of such discourtesy admitted, on handing a copy of his monthly into the office of the Daily Times, that he knew nothing about my case.

columns of a city daily paper in answer to a for-mer attack upon Dr. Hunter, by this same med-ical editor, was never published by Dr. Hunter

This statement has been called forth only by the unjustifiable misrepresentation of facts to which I have alluded, and I shall merely add that my previous suffering and present good health are known to hundreds—many of whom daily congratulate me on the evident and great

A PLAIN STATEMENT OF PACTS 25 and 27 CEDAR STREET, New YORK.

September 8, 1856.

I have just read an attack made by Dr. D. H.
Reese in his monthly publication, upon Dr. Robert Hunter of this city, endeavoring, in the most uncourteous manner, and by the most paltry

uncourteous manner, and by the most paltry quibble, to injure Dr. Hunter through me; although Dr. Reese knows that I attribute to Dr. Hunter's treatment of my case by inhalation, and to no other case, the saving of myllife, and the uninterrupted good health I have enjoyed for more than two years.

I was formerly one of the firm, Clayton & Co., of the Commercial Advertiser job printing-office. My brother J. G. Clayton was also, and is yet of the same firm, besides being one of the editors of the Commercial Advertiser. All which facts Dr. Reese knows well.

Dr. Hunter never asked me to publish a statement of my case, although had he done so at

as in the other. Neither will there be danger from the precedent, for it is almost impossible to conceive that any case attended by such extraordinary and unprecedented circumstances can ever again occur in our history.

Yours, very respectfully,

KANSAS-LETTER FROM THE WIDOW OF LORD BYRON.

And First Prom The Enter of the Boston Telegraph:

Dear Sir: I have just received from London a note from Lady Byron (the widow of the poet) to Mrs. Stowe; Will you kindly undertake, in transmitting my subscription towards the relief of the sufferers in Kansas, to secure this point—that the money shall not be applied to the purpose of providing arms? It is, however, intended as an expression of sympathy with those who have resisted oppression at the hazard of life and property; and I cannot but hope that such sympathy is felt as warmly by many here as by

"Yours most truly,

A. T. NOEL BYRON."

Well known in that office. If was also mentioned ed editorially in the Daily Express of June 16, in vindication, from a former attack made by Dr. Reese, (at least my case was the one alluded to.) The Express quoted, as patients successifully treated by Dr. Hunter, "Messrs. Clayton, of the Commercial Advertiser; Jones, one of the proprietors of the Daily Times; Bennett, (editor and proprietor) of the Harald, and others," &c.

Now, although Dr. Reese knew that I was formerly of the firm of the Commercial Advertiser job printing office, he wilfully distorts the sentence, making it apply to my brother, and on that quibble assails Dr. Hunter's veracity in the grossest manner. Asserting that my brother has been his [Dr. Reese's) "patient for many years," and that he was "never threatened by Hunter at all." And yet Dr. Reese knew that I also had been his patient until I found no benefit resulting from his treatment, and that, when hope had pretty well left me, I consulted Dr. Hunter, of 828 Broadway, and was cured by his treatment.

The inclosure was a draft for 65 pounds sterhis treatment.

The latter part of 1853, I was attacked with

DALLEY'S MAGICAL PAIN EX-TRACTOR.

INPLANATION and PAIN are as inseparable as FIRE and REAT. Inflamation produces pain, and pain produces in flamation. Wherever there is unnatural heat, throbbing or redness, no matter whether it is caused by a fever, a hurt, a redness, no matter whether it is caused by a fever, a hurt, a soce, poison, rheumatism, piles, scald, burn or sting, there is inflamation. A hundred books or a thousand sermons cannot alter or change the conclusion. To prevent pain and restore nature, inflamation must be subdued. To accomplish this, the efforts of the physician are always directed. Thousands of physicians, and thousand of the first and most sagacious persons who have used DALLEY'S MAGICAL PAIN EXTRACTOR, are convinced and admit, that its control over inflamation is most wonderful and immediate, instantly allaying the pain, neutralizing poison, extracting morbid secretions and forcing nature to resume her course, renewing and healing. No burn, scald, sore or allment, is two severe to yield to its soothing and oring influence. An-

to use it—that I have, for several years, been in the habit of
using other Hair Restoratives, and that I find yours vasily
superior to any other I know. It entirely cleaness the head
of dandruff, and with one month's proper use, will restore
any person's hair to the original youthful color and texture,
giving it a healthy, soft and glossy appearance; and all this,
without discoloring the lands that apply it, or the dress on
which it drops. I walld, therefore, recommend its use to PROP. O. J. WOOD-

PROF. WOOD: As you are about to prepare and vend your recently discovered Hair Restorative, and as you request my opinion of it, I will state, that my hair was, a few menths ago, very gray and after using two bottles of your Hair Restorative it resumed its original color; and since its application all dandruff has disappeared from my head, and I have been troubled with no disagreeable itching of the scalp. I am satisfied with the disagreeable itching of the scalp. I am satisfied with the color and so recently offed. I am prepared, therefore, to recommend its use to all who are desirous of having a beautiful head of hair.

Walcriown, Mass., May 2, 54.

Allow me to attest the virtues and magic powers of your states and states the virtues and magic powers of your lair Restorutive. Three morphs since, being exceedingly of gray, I purchased and soon commenced to use two bottles; and it soon began to tell, in restoring the silver locks to their native color, and the hair which was before dry and harsh and falling off, now became soft and glossy, and it exased falling; the dandraff disappeared and the scalp lost all the disagreeable itching, so annoying before, and now, I not only look but feel young again.
